This famous medicine, made only This famous medicine, made only from roots and herbs, has for thirty years proved to be the most valuable tonic and invigorator of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham, at Lynn, Mass. invites all sick women to write her for advice. Her advice is free, confidential, and always helpful.

England's Oldest School. A controversy has arisen in England as to which school has the right to claim greatest age. There are two schools which were founded in the early part of the seventh century-the King's school, Rochester, and the King's school, Canterbury. Justus, on his appointment to the see of Rochester in 604, made provision for a school in connection with the cathedral. Augustine established the Canterbury school about the same time. St. Peter's at York dates back to the eleventh century.

The subcommittee, consisting of Messrs, Fraser, Stevenson and W. L. Daniel, waited on Governor Blease and he agreed with them. The bill was written by an attorney with legislative experience and the author, Mr. Osborne, had had no experience and introduced the bill as handed to him. Mr. Stevenson and Governor Blease dictated the message which was sent to the house withdrawing the mes-

sage of the night before. The message was as follows: the house of representatives: After consultation with the subcommittee of your judiciary committee, we a ree that an act entitled 'An act to regulate the employment of children, etc.' is awkwardly expressed, but that taking the whole act together, it will go into effect January 1, 1912, and will not in any way affect the law now in existence, until that date, and will not be retroactive, so as to inflict hardships on people employing labor between 16 and 12 years of age prior to its going into effect; however, I am still of the opinion that this is very poor legislation and snould be reme died in the future; and feel that my message has accomplished the purpose for which it was intended, as I favor the act and did not want it defeated, and for these reasons I respectfully ask that the bill be returned to me and that my message, No. 17, be withdrawn and a record thereof stricken from the journal; hoping, however, that early in the next session, which will be only a few days

Upholds Governor's Veto.

The matter of overruling the veto of the governor came up in the senate and that body refused to pass the bill in question over the veto. The bill was one of providing for the enforcement of the dispensary law in local constabulary for that county, enforcement of the dispensary law by appointment from the governor.

The house of representatives passed Mr. Hunter's bill to provide against speculation in railroad, theatre and other tickets

Mr. Ayer opposed the bill on the ground that it would interfere with Sunday school excursions and with ticket brokers who are now licensed by law.

Mr. Willis of Laurens favored the bill. He had had to pay \$16 for two \$2 tickets for the "Ben-Hur" performance and he had heard of one man who had paid \$25 for two seats. He roasted the conditions at the Columbia theatre at that time.

Mr. Rembert, in favoring the bill, declared that the management of the Columbia theatre wishes this bill enacted. The manager deplored conditions during the "Ben-Hur" sale but was powerless to help himself. The bill passed without much discussion.

Mr. Ashley "Agin" Torrens Bill. When the house reached on the calendar the senate bill to provide for a committee to investigate into the advisability of adopting the Torrens land system for use in this state. Mr. Ashley made the speech of his whole legislative career. He was "agin" ft.

Mr. Magill opposed that feature of the bill which appropriated \$500 for this investigation. He referred to the educational legislative commission and said it had cost a lot of money and had brought no information.
